

environmental·rail services

Company Summary

what we do

Mile Rail, LLC combines strong environmental experience and unique rail facilities to deliver a broad range of railcar cleaning and blasting services as well as waste management services to clients throughout North America. We service a diverse and high profile client base including leading corporations, rail fleet owners and logistics providers.

Centrally located in Kansas City, Missouri, Mile Rail cleans virtually all types of railcars and accepts a comprehensive range of non-hazardous and hazardous products and RCRA-empty and non-empty wastes. Our projects span a single railcar PCB decon to ongoing full-fleet DOT cleanings, sanitations and light repair.

In addition to railcar cleaning, Mile Rail offers an array of safety, environmental and waste management services including hazardous and non-hazardous waste disposal, universal waste handling, metal recycling, waste transfer, waste bulking and storage, and DOT, OSHA and RCRA safety training.

what sets us apart

We are customer focused. Our goal is to always exceed our clients' expectations.

We are technical. Science helps us obtain the best outcomes and quality.

We are efficient. With 33,000 feet of track, we can meet your requirements and timelines.

We are entrepreneurial. Creatively solving your challenges is our business.

We are green. We demonstrate environmental stewardship through beneficial and off prime reuse and recycling.
